

## Product Information Sheet

# BAC-WIPE MP

*Now specially formulated with a unique blend of no less than three safe but effective biocide actives, these wet impregnated non-woven wipes are specifically designed for light, frequent cleansing and disinfection of hard surfaces, utensils, temperature probes and other such test instruments. Note that for food-preparation applications, note that the liquid complies with EN 1276 as well as many other international standards.*

*The safe but effective blend of biocides in BAC-WIPE MP give effective control of Gram-negative and Gram-positive bacteria, including E-Coli 0157:H7, MRSA and similar resistant strains, Clostridium, Pseudomonas, Salmonella, Listeria, "Staph" & "Strep" plus fungi and viruses, including Herpes simplex, HIV Hepatitis B & C, Poliovirus and all enveloped viruses (which includes influenza, mumps, rubella and retro-viruses).*

*Free from fragrances, to eliminate any risk of taint, BAC-WIPE MP is especially useful in catering, food processing and food manufacturing environments, as well as in medical or veterinary uses. Ideal for use by doctors, vets, paramedics and other mobile medical staff, first-aiders, food and animal inspectors, fast food vans, janitors, food processing works, etc.*

### FEATURES

### BENEFITS

<i>Effective</i>	<i>controls a wide spectrum of micro- organisms, giving assurance of hygiene.</i>
<i>Fragrance-free</i>	<i>Allows assured effectiveness in food-handling without any risk of taint.</i>
<i>Active biocides</i>	<i>give effective and residual action – unlike alcohol-based products.</i>
<i>Safe</i>	<i>no risk of skin irritation or sensitisation, even in fairly frequent use.</i>
<i>Handy</i>	<i>easy-pull pack is convenient to carry and use, and keeps wipes fresh and clean.</i>

Sheet Ref.: PI-SSS31/ 04

Date of Issue: 10/01/2013

## Application and Safety Information

### **BAC-WIPE MP**

**Description:** *Non-woven wipes, impregnated with a solution of three active biocides together with wetting and synergising agents.*

**Application:** *Use only to sterilise surfaces which have already been cleaned to remove excess soiling. Use as supplied, by pulling a fresh wipe from the container and wiping evenly over the surface to be sanitised.  
Allow to dry naturally - do not use any other towel or wipe. Always re-close the container top to keep the wipes fresh and moist. Allow not less than 5 minutes before using preparation surfaces, equipment or probes,  
N.B - this product is NOT intended as a replacement for proper cleaning, but as useful assistance in maintaining hygiene.*

**Packaging:** *Standard case containing six packs of wipes (average quantity 200 wipes per pack). Packs are lidded blue for control purposes.*

**Physical Data:** *Appearance: White moist wipes.*

#### **Emergency Action On:**

**Skin Contact:** *Not applicable*

**Eye Contact:** *Flush out with plenty of water.*

**Ingestion:** *Drink plenty of water and seek medical attention. DO NOT try to induce vomiting.*

**Spillage:** *Absorb in granules, sweep up, bag and bin.*
