

## Product Information Sheet

# SWIFT

*A High Strength, Multi-purpose cleaner and degreaser. SWIFT is ideal for cleaning, by mop, brush or spray, any surface not affected by water. Versatile SWIFT cleans floors, walls, tiles, linoleum, plastic, metals, engines, vehicles, paintwork, machinery, ovens, grills, cookers, counters, work & table tops, drainers, baking trays and many more.*

*With controlled power, SWIFT can even be used in such extreme cleaning situations as deck and bulkhead cleaning on vessels.*

### FEATURES

*Non-caustic*

*Non-flammable*

*Labour-saving*

*Economical*

*Biodegradable*

### BENEFITS

*much safer on painted or other surfaces which can be adversely affected by "Caustic type" products.*

*eliminates the risk of fire from cleaning and degreasing operations.*

*strong, safe and easy to apply, wipes dirt away in seconds.*

*effective dilutions up to 1 in 160 keep you in control of the cost of cleaning.*

*enables effective cleaning without adding risk to the environment.*

## Application and Safety Information

# SWIFT

**Description:** Concentrated aqueous non-ionic and modern amphoteric surfactants provide excellent oil and particle removal. The product is further built with non-caustic alkalis and safe, environmentally friendly solubilisers to provide optimum cleaning power and good storage capability even in colder situations.

**Application:** SWIFT may be used neat or diluted with hot or cold water up to 1:160 as desired and depending on the type and heaviness of soiling to be removed. You may apply manually by brush, mop, cloth or spray or, if required, you can even use SWIFT via pressure wash apparatus. The low viscosity ensures it is easily drawn via any sort of detergent feed inlet and, for ease of use, no pre-dilution is needed.

**Packaging:** Available in 210 litre or 30 litre poly-drums and in cases of 4 x 5 litre poly-cans.

**Physical Data:** Appearance: Clear, pale yellow, frothing liquid, totally miscible with water in all proportions.  
R.D @ 20°C: about 1.04  
pH (1% solution): 11-12

### Emergency Action On:

**Skin Contact:** Rinse off with water.

**Eye Contact:** Flush out with plenty of water.

**Ingestion:** Drink plenty of water and seek medical attention. DO NOT try to induce vomiting.

**Spillage:** Absorb in granules, sweep up, bag and bin.
